

OFFICER ARRESTED

LOS ANGELES. — Augustin Autunex, 25, who said he was a Mexican customs officer at Tijuana, Lower California and Rovers Breton, 25, a clerk in the same office, were arrested here today with \$30,905 in United States gold coin in their possession. They and Harry J. Walip, 17, chauffeur, were held on suspicion of robbery. Autunex, a police said, told them he ought the gold into the United States "for safe keeping."

FLOGGED BY MOB

TULSA, Okla. — A crowd of more than 100 armed and masked men last night seized J. E. Frazier, 28 and took him in a motor car to a lonely spot where they moved his clothing and flogged him. He then was ordered to leave town. Frazier was overpowered shortly after he had been released from the city jail, where he had been held on an investigation charge.

LIFEBOAT FOUND

SAN FRANCISCO — A lifeboat with eleven men was picked up at last night by the tug Sea Lion. The boat was believed to be the missing from the Canadian steamer, which was found 500 miles west of San Francisco two days ago by the Canadian observer. A wireless message from the Sea Lion did not say where the boat was found.

BUILDING DEDICATED

LEVELAND. — A new twenty-story commercial building in the downtown district was dedicated tonight with prayers offered by a clergyman. An electrical sign on top of the building will be visible for ten miles.

WOMEN INDORSED

LEVELAND. — Two women endorsed last night in their candidacy for the city council by a Republican executive committee. Irene Nungesser, a lawyer, is in the 27th ward and Phoebe Christian in the sixth.

PROF. PEBODIE DEAD

CINCINNATI. — Professor W. E. Pebodie, 87, for more than a half century a teacher of Greek and Latin in the Cincinnati schools, died at his home last night. Chief Justice William Howard Taft was one of his pupils.

AWARDED \$5,000

COLUMBUS. — The Ohio judicial commission today made an award to the widow of a murdered while on duty. The commission awarded \$5,000 to Helen Thompson, widow of Thompson, an attendant at a standard oil filling station in Columbus who was murdered by a man about a month ago.

W. A. MILLER DEAD

COLUMBUS. — William A. Miller, 63, founder and president of C. H. C. Goodman Company, manufacturers in Columbus, died today at his home near Mackinac, according to word received.

**G PAGEANT
WILL BE STAGED
FOR BISHOP**

LEVELAND. — (By Associated Press.) — More than 200 priests and nuns from Cleveland and other cities will leave here tomorrow morning on a special train of 15 cars for Toledo to escort Bishop Schrembs, the new head of the Cleveland Catholic diocese, to his new residence. The entourage will include pastors and representatives from all the parishes in the northeastern Ohio district. On the return trip, the party will be joined by representatives of that district. Bishop Schrembs will be met by a committee of 100 cars which will proceed enroute to the St. John's church by the Knights of St. John. There uniformed societies and city officials. By the time the cathedral is reached it is estimated 1,000 automobiles in line, including many floats and floats. The conclusion of the parade Schrembs will be served in the cathedral house and evening will go to his new residence in Cleveland Heights.

UTILITIES BODY DEFIED BY MEDINA COMPANY

DEATH TOLL IS VEILED AS MINE BATTLES CONTINUE

LOGAN, W. Va. — (By Associated Press.) — A man whose name was not revealed, died at a hospital here during the night from wounds received on Blair mountain yesterday, it was announced today.

According to his story, as repeated by police officers, he and four of his comrades, members of the bands gathered in the Clothier district, ran into machine gun fire from the mountain top. He did not know what became of the men with him, he is reported to have said, just before he died.

If the couriers and others returning to Logan from Spruce Fork Ridge knew what was happening there, they did not talking unless it was to the authorities. What official statements were made added nothing to what had already been told. That firing continued here or there was all that was said. No mention was made of casualties.

Captain J. R. Brockus, detailed last night by Colonel Jackson Arnold, head of the state police, to investigate reports that men in hidden positions were firing between here and Ethel, headquarters of the troopers, had made no report this morning.

CHARLESTON, W. Va. — (By Associated Press.) — The remaining troops ordered into the disturbed counties of the southwestern part of the state arrived today and took up positions designated by Brigadier General H. H. Bandholtz, in command of the federal soldiers. The first of the troops arrived last night at Madison, Boone, Logan and Mingo. Drastic proclamation, if one is issued, is not expected here.

OPEN ARMY RADIO STATION. LOGAN, W. Va. — (By Associated Press.) — Federal troops were expected to reach Logan some time today. Preparations are being made to keep in touch with Brigadier General Bandholtz headquarters at Charleston by means of wireless. The roof of a hotel here was selected for which to install radio apparatus. It also was expected that the hotel station would be used for the receipt of information from the Spruce Fork Ridge region, which now is the dividing line between state and county peace officers and volunteers and the bands of armed men gathered in the Blair-Clothier-Jeffery district. The soldiers were to be sent to the ridge as soon as they arrived, it was announced.

Colonel Jackson Arnold, commanding the state police, said today that the state troopers probably would be kept in Logan for forty-eight hours after troops arrived.

WAPAKONETA. — (Special.) — Dr. U. S. Beam, colored practicing physician of Lima, brought action Friday against George Freyer and Clayton South, joint proprietors of the Favorite restaurant here, alleging they refused to serve him with food because of his color.

South was arraigned before Justice of the Peace Herrmann and pleaded not guilty to the charge. He was bound over to the grand jury under \$100 bond. Simultaneously, the Lima men brought suit in common pleas court in a civil action, asking for \$500 damages, with interest.

Beam alleges that he entered the restaurant with other persons, who seated themselves at the table and after a few minutes when they were not served, he asked a waiter the reason. The reply, it is alleged, was that they would not serve him because he was a "darkey."

MINE WAR CONFEREES

Left to right: Major General Harbord, Secretary of War Weeks and General Bandholtz. This photograph was taken on the White House steps following the recent conference on the West Virginia mine strike situation, which was participated in by President Harding, Brig. Gen. H. H. Bandholtz, Secretary of War Weeks and Major General Harbord.

UNION DEMANDS THORO U.S. PROBE OF MINE SITUATION

CHARLESTON, W. Va. — (By Associated Press.) — Efforts are to be made by the United Mine Workers to have the senate committee which will meet on September 19, to investigate the mining situation in Mingo-co, West Virginia, broaden the scope of its inquiry so as to include the area now being occupied by federal troops. Philip Murray, international vice-president of the union, has stated he would go before the committee and ask that it extend its investigation to Kanawha, Boone, Logan, McDowell and other counties where miners have been at odds with the coal companies.

Failing in this, Murray said, he would bring the situation before the miners' national convention at Indianapolis on September 20, with the purpose of having it request President Harding to use his good offices to have the senate committee broaden its inquiry or have another committee appointed.

UNION CHIEFS SOUGHT

CHURCH CALL PUT UP TO HARDING

CLEVELAND. — (By Associated Press.) — A movement to have all churches of the country open one hour on the morning of Armistice Day, November 11, for appropriate services "to crystallize public opinion in support of the disarmament conference which will convene in Washington" on that day has been started by the National League of Women Voters.

Miss Elizabeth J. Hauser, of Girard, Ohio, chairman of the committee on disarmament of the league, today sent a letter to President Harding urging him to issue a formal call to the churches to co-operate in the solemn public demonstration. Letters also were sent to all national women's organizations inviting their cooperation.

WAPAK MAN INJURED IN TRAIN WRECK

COSHOCOTON. — C. F. McFarland, Wapakoneta, was among thirteen persons injured when Pennsylvania train No. 34, New York to St. Louis, was wrecked near here last night. All but one of the victims had been discharged from a local hospital this morning.

Eleven of thirteen coaches left the tracks, six of them turning over. The wreck is said to have been caused by the pilot engine jumping the track, the impact being great enough to cause the coaches behind the second engine to leave the tracks. The second engine remained on the tracks.

Railroad men today said the escape of passengers and the crew was nothing short of miraculous.

Those whose injuries were treated at the hospital here were:

C. F. McFarland, Wapakoneta, Ohio; Mrs. Paul Lawrence, E. J. Fowler and Adolph Sholer and his two children, Lawrence and Agnes, of Newcomerstown, Ohio; Arthur Northrop, Marietta, Ohio; John B. Clummer, Stewartstown, Pa.; Caroline Hirsch, New York City; Abram McCoveck, Clover, Ky.; and James Uffner, Pittsburgh, Pa.

Mike Scheimer, of Chicago, who sustained a scalp wound, was still in the hospital this morning.

LEADS IN PRAYER

COSHOCOTON. — (By Associated Press.) — When he found no one was killed an unidentified minister-passenger of Pennsylvania train No. 34, New York to Chicago, wrecked here last night, rallied passengers around him and led them in prayer. Then he led in singing the Doxology.

CASE AGAINST OHIO PASTOR IS DISMISSED

BELEFONTE, O. — (By Associated Press.) — While prediction was made in some quarters that the Western Ohio conference of the Methodist Episcopal church would be unable to complete its business sessions by Monday night, Bishop Luther Wilson, who is presiding, indicated that he would make every effort to expedite the business before the conference so that it could be concluded at the scheduled time.

Assignment of pastors will be made Monday, it was announced by the bishop.

Charges of conduct unbecoming a minister which had been filed against Rev. W. W. Kent, suspended pastor of the Ohmer Park church, Dayton, were dismissed by the trial committee on the grounds of insufficient evidence.

The conference will meet in Dayton next year on the invitation of Grace M. E. church of that city.

Admission of laymen to the conference will be taken up at the 1923 session, it was decided, following a long discussion of the question at yesterday's session.

Bishop Wilbur P. Thirkield, in charge of the Mexican area of the church, in an address before the conference yesterday, praised President Obregon and says he believes the future of Mexico depends upon the ability of its people to preserve peace for a sufficient period to permit social, educational and religious development.

TRIO OF LIMA MEN TAKEN IN FINDLAY ON AUTO THEFT CHARGE

Chief of Police Roush, accompanied by C. C. Plummer, State-st. left Lima Saturday afternoon for Findlay, where Edward Andrews, Louis Meyers and Edward Coy, three Lima men, will be turned over to them for conveyance to this city, where they will answer charges of grand larceny.

The three men, arrested in Findlay Friday night, are alleged to have stolen a Cadillac car owned by Plummer. The car was stolen here just a few hours previous to the arrest of the men.

Upon their return to this city, Andrews, Joy and Meyers will be arraigned before Judge Jackson in police court.

WON'T RESUME GAS SERVICE UNTIL FORCED

COLUMBUS. — (By United Press.) — The next step in the gas fight in Lima and surrounding territory is up to the companies, local authorities, or the courts.

The utilities commission did all it can when it ordered the Medina Gas and Fuel Company to resume service to distributing companies at Lima, St. Marys, Celina and Wapakoneta.

E. A. Tinker, member of the public utilities commission, Saturday said this was the commission's position in the controversy. The service resumption order was issued late Friday, notice being served by telegram on the producing company to open its mains at once.

The commission has received no reply to indicate what action the company may take.

Ira L. Neely, general manager of the Medina Gas & Fuel company, declared Saturday that he will disregard an order of the public utilities commission, commanding him to furnish gas to Lima.

According to press dispatches from Wooster, headquarters of the Medina company, Neely is credited with stating: "Service to Lima and nearby towns will not be resumed until and unless we absolutely have to."

He stated that he is awaiting advice from company attorneys regarding the matter. Neely received the orders from the commission early Saturday morning.

In a telephone conversation with Manager Neely, Saturday, substantially the same statements were made by the gas official. "I'll tell you frankly," he stated to a News representative, "I don't know what will be done. I have been unable to reach the company's legal representative up to this time and will do nothing unless advised by him."

A decision may be reached later Saturday, Neely declared. He would not predict that Lima would, or would not, receive gas from the Medina pipe lines.

OUTER PLANS STARTED. Council, acting on advice of Solicitor H. E. Garling, moved to drive the Lima Natural Gas company from the city, at a special session held Friday night.

Its action, mapped out in conferences held between members and attorneys, took form in two measures: The first step was to appropriate \$2,500 for hire of assistant counsel. The second step was the introduction of a resolution designed to oust the Lima company from the city's streets, and revoke all franchise rights held by the concern.

The resolution was placed on its first reading after Councilmen Reed and Brice blocked a motion to suspend the rules, and pass the measure at once. This action forced the majority members to adjourn until 7:30 p. m. Saturday, when the resolution will be read for a second time. The third reading is slated for Tuesday.

Solicitor Garling is empowered in the resolution to institute and prosecute to complete termination order proceedings against the company, before the utilities commission or any tribunal in the state.

Council's action was taken despite the fact that an order for resumption of service from the utilities commission was read by Mayor Burkhardt.

But eight members of council were present at the start and Councilman Earl Rohn acted as president pro tem. In the absence of W. J. Dempster, who arrived later.

INJUNCTION FUTILE. When called on for an explanation of legal phases in the matter, Solicitor Garling stated that no injunction could be obtained by the city which would hold. He was of the opinion, however, that the company had violated its franchise by allowing service to be discontinued.

Immediately afterward Councilman Landis brought up the question of an appropriation for assistant counsel. It was placed in hands of the finance committee, council taking a recess. Recommendation that \$2,500 be appropriated was made by the committee. Councilmen Rohn and Brice signing the recommendation and Reed being opposed. Legislation was ordered by a vote of 7 to 1.

Council then proceeded to resolve its self into a committee of the whole and a recommendation was made directing the solicitor to institute

substitute ouster proceedings. Brice and Reed went on record against the recommendation, but it was carried 6 to 2. The resolution previously prepared was then introduced, but a motion to suspend the rules and pass it at once, made by Councilman Rohn, was blocked. This put the resolution of its first reading.

UTILITY BOARD'S REPLY. In reply to the petition of the Lima Natural Gas company, asking that the Medina Gas company be required to resume gas service here immediately, General Manager Emmet Curtin received the following from the Public Utilities Commission:

Columbus, Ohio, Sept. 2, 1921. E. R. Curtin, President, the Lima Natural Gas Co., Lima, Ohio. Administrative Order No. 61. At a regular session of the Public Utilities Commission, held at Columbus, Ohio, September 2, 1921, present George C. Poor, Chairman, Elisha A. Tinker, Charles C. Marshall, Commissioners, the Commission having under consideration the report of the disconnection by the Medina Gas and Fuel Company of its service from the Lima Natural Gas company, The Medina Gas company, The St. Marys Gas company and The Wapakoneta Natural Gas company, and the Commission being advised that the health of the republic requires an immediate restoration of such connection and the resumption of the distribution of natural gas by said last named companies in the respective communities heretofore served by them, it is ordered that the Medina Gas and Fuel company be and hereby it is notified, directed and required forthwith upon the service of this order to restore its connection for and to furnish natural gas to said The Lima Natural Gas company, said The Medina Gas company, said The St. Marys Gas company and said The Wapakoneta Natural Gas company for distribution by them to their respective consumers and the public. It is further ordered that said the Lima Natural Gas company, said the Medina Gas company, said the St. Marys Gas company, and said the Wapakoneta Natural Gas company be and each of them is, hereby notified, directed and required forthwith upon the restoration of said service by said the Medina Gas and Fuel company to restore their respective distributions of natural gas to consumers and the public in the several communities heretofore served by them. It is further ordered that this order be and remain in effect until the further order of this Commission or until the respective rights and liabilities of said companies are legally adjudicated. It is further ordered that this order be served by telegram upon the parties hereto a true copy, J. J. Baird, acting secretary. The Public Utilities Commission of Ohio. Geo. T. Poor, Chairman. Elisha A. Tinker, Charles C. Marshall, Commissioners. ORDER ACKNOWLEDGED. Following receipt of the order promulgated by the State Utilities Commission, directing resumption of gas service, President E. R. Curtin

MOSQUITO PEST IS DANGER SOURCE

Insects Carry Disease, Health Authorities Hold

MORE NOW THAN IN YEARS

Dry Season Prolific of Propagation of Buzzer

The month of September has arrived, citizens are still being bothered by that troublesome, often dangerous, elusive insect—the mosquito. Nightly the buzz and bite of this insect is causing havoc in peaceful households.

Health reports claim there have been more mosquitoes this year than ever before in all parts of the United States. Lima and Allen-co have apparently been accorded their full quota, judging by reports to local health officers and the mounting sales of preventatives being sold by druggists.

The increase is not only in mosquitoes, but in all kinds of insects, according to merchants. The cause of this increase of millions of bushels of mosquitoes is difficult to determine.

It is generally conceded that the increased number is due to the continued hot weather which has prevailed all summer and is continuing much longer than during the average summer. County Health Commissioner J. J. Sutter said Saturday.

PREVENTATIVE SALES MOUNT
Druggists point out that their sales for mosquito preventatives, such as oil of citronella, pennyroyal extract, camphor, etc., have been more numerous this year than for six or seven years.

The sales of such preventatives usually cease about the middle of August. This year, however, they were slack for two or three weeks during the cooler weather, but with a resumption of hot weather they are now mounting and are as numerous as in the midst of the usual season for such sales.

Mosquitoes are not only nuisances, but it has been discovered that they are conveyors of malaria, yellow fever, filariasis and dengue fever. Any oil that has a strong odor is a preventative against mosquitoes, according to druggists.

Screens are valuable weapons against the mosquitoes, but often it is possible for them to get through the screens. If the screens are painted lightly with kerosene or oil of citronella, they will stop the insects. The good remedies for mosquito bites are declared to be unknown, it is said that moist soap rubbed over the bite will relieve the irritation.

Other authorities have recommended household ammonia, alcohol or glycerin. The oil is generally believed that all mosquitoes breed in water, it has been found that the insects have breeding places of the most diverse character.

WHERE THEY BREED
Some species breed only in tree holes, others in accumulations of water in epiphytic plants, some in salt marshes and others only in pools formed by melting snow. The general species, however, breed in any water.

Mosquitoes of this species have been known to breed in many unthought-of places, as in urns in cemeteries, in flower vases in the house, and water pitches used in guest rooms in hotels.

Drainage or destroying places where water accumulates will lessen the number of mosquitoes by millions. Where it is impossible to destroy or drain these places the larvae can be killed by treating the water with petroleum or kerosene.

Billions of mosquitoes that are now causing so much annoyance will undoubtedly disappear when cooler weather arrives. This should be in the near future.

SHIPLEY TARRIED TOO LONG; NABBED SECOND TIME FOR INTOXICATION

"He walked right out, turned around and was brought right back again," that might be an appropriate title for this article.

Guy Shipley, 46, 112 W. Rich-st., Columbus, was arraigned in police court Saturday on a drunk charge. Guy had \$15 on him when arrested. He pleaded so hard with Judge Jackson that "bizzoner" took \$5 off the regular drunk fine, leaving Shipley with a ticket to Springfield. Guy was grateful and declared he would shake the dust of Lima from his feet forthwith.

As Guy was signing his release slip, Desk Sergeant Kinzer remarked:

"You could talk better if you had another drink."

"If I had another drink, I couldn't talk at all," was Guy's reply.

Shipley purchased his ticket to Springfield, but while waiting for the car again toyed with the flowing hair, police say.

Anyway, Shipley was rearrested and is again languishing behind the bars of city prison, awaiting arraignment in police court. And, probably thinking up a new alibi.

WARNING TO GAS CONSUMERS
The Public Utilities Commission of Ohio has ordered the Medina Gas and Fuel Company to turn on the gas supply.

We are in hopes that this will be done and we hereby notify you to see that all gas appliances are closed and in no event to leave your premises with the gas burning, after the service has been resumed.

THE LIMA NATURAL GAS COMPANY.

Children Cry for Fletcher's Castoria

When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry, Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a baby.

Castoria always bears the signature of

CHAUFFEUR DIES IN AUTO WRECK

Wisconsin Man Killed, Two Hurt, in Beaver Dam Accident

Death claimed one as its toll and two others were injured when two automobiles, driven on the Lincoln highway, two miles east of Beaver-dam, collided at 6:50 Friday night. Both cars were wrecked.

L. S. Bradley, 32, chauffeur, Fennimore, Wis., was killed. His head is crushed.

Olsen A. Powle, president of the Holmes Automobile company, Canton, suffered minor cuts and bruises.

T. B. Ward, tire dealer, Bluffton, severe bruises and shock from being thrown from his car. He was driving an Overland car.

Rain had cast a mist over that territory and is believed to have been responsible for the accident.

Bradley was driving Powle's Marmon automobile. He was pinned beneath the wreckage. Powle was thrown ten feet into the wet muck and weeds.

The accident occurred at a sharp turn in the roadway. The body of the dead chauffeur was brought to Lima and taken to the Williams & Davis mortuary. It was shipped Saturday to his home in Fennimore, Wis.

Powle, who was traveling from Canton to Chicago, was able to proceed on his way by train Friday night, after being given first aid here.

Ward was also able to be at his place of business Saturday morning.

PERMANENT CAMP IS PLANNED FOR LIMA BOY SCOUTS

Plans are under way to secure a permanent camp for the boy scouts of Lima, it was reported at a meeting of the local council. The meeting was held in the American Bank building, Judge F. C. Becker, president, presiding.

The success of the summer camp in the past two years has encouraged the organization to seek a permanent site to be used year after year.

Girty's Island in the Maumee river was the scene of this summer's camp. Four camps of a week each are planned in the future.

The court of honor will hold its next meeting during the last week in September. Forty scouts are slated for promotion at the meeting. Tests will be conducted by W. R. Wilcox.

The annual field and track meet is announced for the latter part of October.

TRAFFIC CHARGE DISMISSED
Arraigned in police court Friday on a charge of driving past a street car while passengers were being discharged at North and Main-sts. A. P. Gardner, 6 Jean-court, pleaded not guilty. He was given an immediate hearing. Judge Jackson dismissed Gardner with the admonition to use judgment while driving his car.

ROY SEALTS AND RAY BRUNDER HURT WHEN AUTO AND TRUCK CRASH

Roy Sealts, member of Sealts wholesale grocery concern here, and Ray Brunder, narrowly escaped serious injuries when an automobile in which they were riding collided with a truck at West and Market-sts at any early hour Saturday morning.

Sealts sustained three broken ribs, while Brunder received minor injuries.

Sealts was driving the car at the time of accident. Both occupants were thrown from the car by the impact. Immediately following the accident, Sealts was removed to his room at the Knights of Columbus home, where his injuries were given attention.

TRADING IS SLOW; STOCKS FIRM

Business in the Lima Territory Shows Improvement

DEMAND FOR MOTORS GROWS

Resume of Local Industrial and Business Conditions

Reports from manufacturing plants in the immediate section indicate a turn in business for the better. In New Bremen and Minister, factories are taking on additional men and are working on orders received principally from the east. In Delphos, factories which have been closed down are now open, and in Sidney one plant, the Wagner Manufacturing company, is working the largest force of men they have had in the past six months, over 200 employees being called back to work during the past ten days.

Improvement in the motor truck business has necessitated local truck factories calling some men back. The truck business, however, according to reports, is "spotty," but the month of August is the best which local plants have enjoyed during the year. The Lima Sheet Metal Products company, due to increasing demand for trucks and the numerous truck concerns getting back into production, is enjoying good business.

Department store sales are larger in volume, considering the cut in prices a year ago. Locally money is still tight, but with every indication of easing in the next few months.

Garford Motor Truck, common and preferred, was in demand during the week, 52 being bid for the common and 54 for the preferred. Wagner Manufacturing preferred was in demand at 100, several sales being made at par. Ohio State Telephone 52 of 1944 were bid for at 5 points over previous sales and the common and preferred stocks of this company were strong. No sales were reported in Lima Telephone preferred and common, a waiting market was in evidence. Auditors from the Public Utilities commission have not as yet checked up the claims of the Lima company for an increase in rates, but it was expected there would be no question about the raise being granted. Lima Sheet Metal stock was in demand at 11 1/2 and 12 1/2 a share. The new factory is about ready for occupancy and with the new business this company is receiving, it is felt, that the increased manufacturing capacity would be rapidly taken up.

PRODUCE REVIEW.
(By Swift & Co.)

Record receipts of live poultry have resulted in lower selling prices in the large consuming centers, and prices have reached lower levels in the country. A large amount of poultry remains to be marketed, and even marketing is suggested, as poultry plants are now generally in a position to handle normal receipts.

On account of extremely hot weather, trout western producing sections, eggs are not showing the usual good quality and lower prices have not been noted on the markets. Better care and more frequent marketing would help the general situation.

The butter market is closing on a little firmer basis than last week. The receipts it cream have been above normal for this season of the year, but a slight reduction has been noted in the last few days.

WARNING TO GAS CONSUMERS
The Public Utilities Commission of Ohio has ordered the Medina Gas and Fuel Company to turn on the gas supply.

We are in hopes that this will be done and we hereby notify you to see that all gas appliances are closed and in no event to leave your premises with the gas burning, after the service has been resumed.

MARKETS CLOSED

NEW YORK. — All New York exchanges closed Saturday until Tuesday.

LOCAL MARKETS NOT AFFECTED BY PRICE CHANGES ELSEWHERE

Produce prices remained steady and quiet Saturday despite the increased demand to carry over Sunday and Monday. The supply, however, is declared to be bountiful enough to supply this increased demand.

Saturday's market was a repetition of Friday; all local produce was unchanged. The retail market has been unusually quiet for some time. This is probably caused by a supply that meets the demand but does not overstock the market.

Wholesale market registered no new quotations Saturday. The slight changes have been made in foreign wholesale markets, local prices have not been affected.

Grain market was steady and quiet Saturday. Since a slight drop in flour and wheat some days ago, no changes have been made.

Live stock remained unchanged. Hogs are still the same, despite increases in the Chicago market, Friday.

Cleveland market registered a cent increase in the price of butter on all grades. Some grades of poultry continued to decline. Potatoes again dropped in price. Jerseys are down 25 cents and sweet potatoes 50 cents.

aps Have hance At avis Cup

FOREST HILLS, N. Y.—Japan's masters, Kumaage and Shiga, with two defeats chalked up, met them in their battle for the Davis cup, meet the Yankee doubles in the third match of the series this afternoon and in victory their only hope of prolonging the fray.

Against Johnston yesterday, Ichiba Kumaage, did not appear at his best, but his game usually earned by accuracy and a tendency to return so as to get points on his opponent's errors.

Ichiba Kumaage, whose court cover and remarkable gets, as displayed in his match against Johnston yesterday, stamp him the most dangerous opponent of the American players, Kumaage makes a strong left partner.

His opponents this afternoon, on M. Washburn and R. Norris, are known as one of the most formidable doubles teams in the world and are favored by the experts.

Dr. Suzanne Lenglen will appear in an exhibition mixed doubles following the Davis cup match, and with Vincent Richards, the male junior champion, she will play Mrs. May Sutton Bundy, of Los Angeles and Willis B. Davis, of Los Angeles. A match between Milne and one of the star American players scheduled for Saturday at Southampton, has been called by the Meadows club. Lytle Fox, chairman of the club's tennis commission, said the cancellation of the match was due to the illness of Milne. Lenglen's insistence on playing a doubles match, rather than a singles.

Pirates Win Handily Over Shamrocks

The Junior Shamrocks fell to defeat at the hands of the Pirates yesterday in a toughly contested battle at the College diamonds by the score of 9 to 7. Both teams fought hard throughout the game but the Buccaneers by late inning rallies took home the bacon. The Pirates started the dirty work in the second when Routine, the first batter up, doubled to left and tailed on Angell's single over third. The Junior Shamrocks didn't like this, so in their half they added a trio of scores. Callahan got to second on Cohn's two base wild heave and scored when Wells faced a triple to deep left. Wells counted on Steinbaugh's single and he scored on another hit and an out at first. The Irish lad added another in the fifth on a couple of errors, a swiped base and an out. The Pirates made their next in the sixth on a couple of bingles and a hit batsman. The Irishmen made two in their half on two hits, a couple more errors, and a stolen base. The Pirates tied the count in the seventh when four hits and a pass gave them four scores. The game was won in the last round when the Pirates made three more on a triple, a couple of errors and a hit batsman. The Irish made one in their half on a hit, an out and a walk.

The score:

	AB	R	H	E	O	A
Pirates	35	9	12	27	13	6
Shamrocks	35	7	7	27	9	4

Score by innings: Pirates 0 1 0 0 1 4 0 3 3 7 Shamrocks 0 3 0 0 1 2 0 0 1 7

Two-base hits: Routine, three-base hits: Wells, Seely, Routine. Bases on balls: Off Swisher 2; off McNamara 3; off Brennan 1. Struck out: By Swisher 2; by McNamara 4. Hit by pitcher: By Swisher, (Daily); by McNamara (Routine, Angell). Losing pitcher: Brennan. Hit: Off McNamara 10 in 7; none out in 8th; off Brennan 2 in 2. Double play: McNamara to Gisco. Left on bases: Pirates 8; Shamrocks 5. Passed balls: S. C. Wells 2. Umpire: Diener. Scorer: J. Marlin Dow.

Speed Boat Classic Resumed Saturday

DETROIT, Mich.—After a lull of two days, racing in the gold cup Harmsworth speed boat regatta here was resumed today with the first heat of the British international (Harmsworth) trophy contest as the outstanding event. Four of the speediest water craft in the world were entered in the international classic, Maple Leaf will the 1900 horse power British challenger, facing a trio of American defenders. The defenders are Miss America II, built by Garfield A. Wood, of Detroit, to develop a speed of more than 80 miles an hour; Miss America I, holding the world's speed boat record of 76.655 miles an hour and Miss Chicago of the Chicago Yacht Club, the fastest single engine hydro-airplane in the world. That a new world's record would be established in today's heat seemed a foregone conclusion among racing officials. Both Miss America II and Maple Leaf VII, have shown terrific speed in trial sprints over the course.

Reds Whitewashed

CINCINNATI.—(Special)—Grover Alexander may be getting well along in years, but had enough of the old ginger and pep in him yesterday to hand the Reds a 7 to 0 wallop in their first game of the Redleg-Cubs series. All the Reds effort to get the star slaban flivvered ere they started, and always was he master of the situation.

Eppa Jephth Rixey was not so effective, and the Killifer lads bamboozled him with their bats until Manager Patricia Moran chased him to the showers in the second inning. Peter Donahue, the unknown quantity, relieved the Virginian, and went the remainder of the game for the local squad.

The score:
Chicago... 040 002 001—7—11—0
Cincinnati 000 000 000—0—5—0
Batteries: Alexander and O'Farrell; Rixey, Donahue and Wingo.

Downey To Complete Training Saturday

NEW YORK.—Bryan Downey, Cleveland middleweight, plans to end his training this afternoon for the Jersey City bout on Monday, in which he hopes to win the world's mid-dleweight title from Johnny Wilson. Wilson will not quit the conditioning grid until tomorrow, it was announced. The two fighters were reported under the required weight of 160 pounds this morning and statements came from both camps predicting victory by a knockout.

Admirers of Jack Dempsey will get a chance to cheer him at the Richard arena Monday. It was announced that the heavyweight king would witness the Wilson-Downey fight from a ringside box.

DISEASE OF VENEREAL ORIGIN CLAIM 300,000 VICTIMS ANNUALLY IN THE UNITED STATES

Every One of These Cases Could Easily Have Been Prevented

The dreadful effects of venereal disease is causing locomotor ataxia, paralysis, softening of the brain, degeneration of the heart, blood vessels, and kidneys, and many other life-shortening and crippling disorders are known to every intelligent man.

They also know that scores of thousands of women and innocent little children are doomed to suffer agonizing disease, or even death, because of transmitted affections.

But what few men yet know is, that in no single instance is there the slightest excuse for the development of any form of venereal disorder. ALL ARE PREVENTABLE.

All you need to do is to use PROCALINE—the ideal prophylactic—after exposure. PROCALINE ABSOLUTELY DESTROYS the germs of every venereal disease before infection can take place.

This has been conclusively proved in thousands of cases, where PROCALINE has been used for years without a known failure.

The Pennsylvania State Board of Health has tested PROCALINE and has given it their endorsement. The State of New Jersey and other states, in fact, the United States Government, Health Boards, Medical Societies, and informed people generally, are making a determined stand against the spread of these diseases. PROCALINE is easy to use, harmless and efficient, when used early enough after exposure to infection and according to instructions.

Go to your druggist today and get a tube of PROCALINE—price 30c for the two-application tube and 20c for the one-application tube, and be on the safe side. Hawthorne Drug Specialty Co., Inc., 88-90 Reade Street, New York, N. Y.—Adv.

Rickard Is Indicted By U. S. Jury

CHICAGO.—(Special)—Tex Rickard, promoter of the Dempsey-Carpenter fight, was named yesterday in a federal indictment returned before Judge Landis for interstate transportation of fight films in violation of federal statutes.

The indictment is the climax of Rickard's attempted exhibition in Chicago of the Dempsey-Carpenter films. Immediately after the battle Rickard took the films to New York and paid a \$1,000 fine for carrying them to that state. With the fine paid, he then distributed the films all over the district.

TRIES SAME GAME IN CHICAGO
Shortly after this incident Rickard tried the same tactics in Chicago. He was at once arrested, placed under \$5,000 bonds, and held for the grand jury.

It's a clear case of premeditated violation of the law, United States District Attorney Charles F. Clyne said yesterday. "Rickard knew after his arrest in New York that he would be picked up here if he tried similar tactics. Yet he tried them."

"I shall order his arrest on a similar charge every time he exhibits the films."

JOINT OWNER IS MUM!
Fred C. Quimby, producer and joint owner with Rickard in the Dempsey-Carpenter films, is stopping at the Congress hotel.

When informed of the indictment he shrugged his shoulders.

"Rickard'll be here next week. Let him talk," was his only comment.

Attempts will be made by the district attorney's office to bring the case to an early trial.

Indians Maul Cole

DETROIT.—(Special)—Hitting King Cole with everything but the gate receipts in the first four innings, the Champions pounced upon Ty Cobb's Tigers and clinched the game with a 13 to 1. Hitting on the part of the Indians was not the only factor in the Champions' win. Four errors, one charged to Manager Tyrus, materially aided the visitors to pile up their dozen runs. Ten added base swats were delivered. Harry Heilmann was the only pastimer to hit for a three-stop ride.

The score—
Cleveland 230 493 001—12—13—4
Detroit... 010 000 000—1—10—4
Batteries: Bagby and Shinnault; Cole, Hollings, Walsh and Woodall.

Scott Plays 800th Consecutive Game

BOSTON, Mass.—Captain Everett Scott, of the Red Sox, took part in his 800th consecutive major league game yesterday. His continuous play, long since a record, started June 20, 1916. The modern record was held by Fred Luderus of the Philadelphia Nationals, who in 1919 completed 533 consecutive games. The longest known previous record of organized baseball, 577 games without a break, was made by George Pinchney, of the Brooklyn American Association team over a period from 1855 to 1890.

Contenders Have Even Victories

All four major league pennant contenders are on a par in games won with a total of 78 each. The Pittsburgh Nationals have a half game advantage over New York and the Giants have lost one more game than the Pirates, while the Yankees possess a full game lead over the Cleveland champions, who have lost two games more than the New York team.

Good pitching was displayed yesterday. The Pittsburgh Nationals were shut out for the second successive time when Halnes of St. Louis limited them to six hits after relieving Dask in the first inning with none out. Alexander of Chicago shut out Cleveland did well in distributing the Detroit's ten hits so that the Tigers sent only one run across the plate. Shooker of the St. Louis Americans blanked Chicago with four hits. Hoyt, of the Yankees, yielded only two hits to Washington after the first inning.

Ruth, Peckinpaugh and Meusel of the New York Yankees had their home run bats in working order yesterday.

Scott Plays 800th Consecutive Game

BOSTON, Mass.—Captain Everett Scott, of the Red Sox, took part in his 800th consecutive major league game yesterday. His continuous play, long since a record, started June 20, 1916. MEMBER OF THE ASSOCIATED PRESSMEN AND BUSINESS
(By RICHARD SPILLANE)

HENRY FORD says money does not make a man.

"It's not what a man gets that changes him," he declares. "It's what he gets that gives him a chance to advertise what he always was. If he was a one-cylinder man at twenty-five and then made a fortune he'd still be a one-cylinder man."

TOLEDO girls have established a fashion of going hatless. You see them out walking, out shopping, on the trolley cars and driving automobiles with their heads uncovered.

It may be pretty tough on the purveyors of women's headwear, but it is a pleasing sight and it is good for the hair.

POSTMASTER GENERAL HAYS had better buck up or Samuel Rea will put him out of business. On Thursday August 18, a carload consignment of metal goods was loaded at the David Lupton's Son's plant in Philadelphia and left the next day for Cleveland. The car arrived in Cleveland on Sunday, was switched onto the siding of the Lupton branch establishment there and unloaded.

On Tuesday evening, more than twenty-four hours after the car had been unloaded and switched back on the main line, the bill of lading arrived by first-class mail. The stamping showed it had been posted in Philadelphia on Friday and arrived in Cleveland at 3:30 p. m. Tuesday.

This incident probably will interest the late lamented Mr. Burseson.

DETROITERS of prominence express themselves as well pleased with Henry Ford's operation of the Detroit, Toledo and Ironton Railroad.

Henry is a wonder, they say.

When you recall to them that years ago they gave a sour look to you if you said anything commendatory of the father of the Tin Lizzie they confess their feelings have changed somewhat regarding him. Their bitterness of former days, they say, was based principally on the fact that he was a disturbing factor in the labor market, making it difficult for his competitors to keep their organizations intact, but that has passed.

Ford's adventure into railroading, they declare, was forced. He couldn't get the service from the railroads he required, so he went out and bought the Detroit, Toledo and Ironton and is providing the service for himself and others. They go further and say the railroads have been slow. Ford's example will be salutary in its effect on them, and the whole country will benefit.

Next, they say, Mr. Ford will enter the lake shipping field, sending stuff by barge thru the lakes, the St. Lawrence and the Erie Canal to the Atlantic seaboard and to foreign markets.

An oddity in connection with Mr. Ford's enterprise developed the other day, when the Board of Commerce, which is the designation of the Detroit's commercial body, received a request from Birmingham, Ala., for support of

the proposal of the Detroit automobile man to purchase the Muscle Shoals property from the Government.

POLICE chiefs who think they have traffic problems should contemplate Detroit. The city has somewhat less than 1,000,000 inhabitants and more than 130,000 automobiles in service, or nearly one for every seven inhabitants.

And yet the taxi is everywhere and the taxi robber thrives. If personal experience forms a fair basis for judgment it may be said that taxi charges are higher in Detroit, the home of the automobile, than in any other large city in America. That is, unless you watch the clock and do not let the chauffeur fool you.

FROM a car window it looks as if the crops of Western New York and Northern Ohio, both grain and fruit, are not anything to brag about. Corn, in particular, looks below average. Apples appear fair, but peaches, pears and grapes do not seem to have done well.

THE "HUMANS" FIRST

IN France they have counted the dogs' noses. The number was 3,855,235 before the war. The new census says that now there are 2,557,389 dogs in the country, the Toledo Blade says. The falling off in canine population is something of a puzzle. The war does not seem to explain it, for the change has been nearly as great in districts far from the fighting zone as it has been in the invaded territory. One interesting point has been much the same, before the war and after. This is the fact that the dogs are not one-tenth part as numerous as the human inhabitants of France.

It is unlikely that any large civilized country has as many dogs as there are human beings. It is highly improbable that the number of domestic animals of any one kind, poultry excluded, in any country big or populous, is as great as the human population. Rats and mice, of course, are not domesticated. They are "wild beasts" that invade the dwellings of men and defy the two-legged bosses of the earth to put them out.

Some countries of wide areas, but not of great population, have more sheep, as in Australia and Argentina, or more cattle, as in Canada and Brazil, than "humans," but the rule is far otherwise. In France, the British isles and Germany the human inhabitants outnumber the horses, the cattle, the swine, the sheep and the goats, all taken together. That is true of Italy, also. In Japan and China the human preponderance over all domestic animals, birds excluded, is very great.

Taking the world as a whole it seems certain that human beings far outnumber the horses, the cattle, the sheep or the swine. Indeed it is not at all sure that they do not exceed all the domestic animals taken together, tho in the United States the horses, cattle, sheep and swine are about 110,000,000 ahead, more than a two-to-one majority.

Man is not only the master of the earth, as far as the tenants of this planet go, but he is enormously strong in mere numbers. No large beast comes near matching his billion and two-thirds, or about that vast multitude, and who would compare hens with women on even terms or count mice against men in balancing their numbers? Moreover, the future belongs to man. The indicated progress of the world points to an ever-increasing preponderance of human inhabitants of all civilized regions over their own livestock.

WIFE TAKES HUSBANDS ADVICE

And Is Made Well Again by Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound to see if it would not help me. For the first

four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children the last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their ills."—Mrs. M. NATALE, 72 Fremont St., Springfield, Mass.

Sickly, ailing women make unhappy homes, and after reading Mrs. Natalie's letter one can imagine how this home was transformed by her restoration to health. Every woman who suffers from such ailments should give Lydia E. Pinkham's Vegetable Compound a fair trial. It is surely worth while.

What to do with our ex-presidents has always been a problem, but now there is a new one in which many charitable people have interested themselves. What has become of the ex-mixers—boys who stood behind the mahogany and wore the white aprons? What has become of them?

We have had only two ex-presidents in some time, but there were. It is estimated, 4,563,782 knights of the cocktail shaker made ex's at one fell swoop. According to the newspapers these birds have solved the problem for themselves. A lot of them got on with the shipping board, having been more or less expert in the direction of schooners.

According to report, \$5,000 or more of them have gone into the automobile business. Some of them have made millions more or less, selling trucks.

One has become an artist and is painting pictures that he would not have dared paint in the old days, and 4,564 of them are canvassing for vacuum cleaners. No one knows how many have gone into taud, but probably a great many. We saw a bill a few weeks ago which we thought was made up entirely of them.

Wb. wonder what the boys are doing? They are scattered over the country selling things they never heard of before, from windmills to patent cherry pitters. In the meantime, if you happen to meet a man in a dress suit and the manners of a millionaire in the lobby of the hotel don't be surprised if it is your old friend Jake or Eddie.

It has just been discovered that when Oom Paul Kruger, president of the Transvaal, died, he left \$3,000,000. He had to.

A man never really has good sense until he is too old to take advantage of it.

OUR "AGONY" COLUMN.
Wanted—Good natured old gentleman who owns a farm with only two mortgages on it would like to meet strong young woman capable of handling a plow, object matrimony. Mus. also be a good cook and know how to milk and pitch hay. Splendid opportunity to right party who can give references. Inquire B. Y. Z

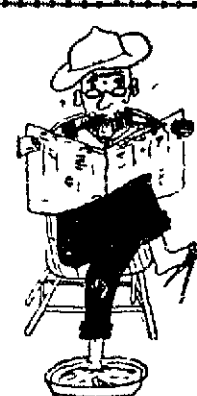

To pronounce the name of the tennis player, Mlle. Suzanne Lenglen, the mouth should first be subjected to a treatment of lemon juice. The bridge of the nose should be used from the reverse side. Exhale forcibly on the nasal chords and at the same time pronounce the letter "L" with a combination on the word "on"; but do not pronounce the "n." Gradually smear into the syllable "glon", but do not close the mouth, and emit the sound of "n." Those who have an inflammatory affection of the mucous membrane will find this easier to do than those who have not. After the name has been spoken inhale whatever air is left in the vicinity and go on living.

WORK.
Work and the world works with you. Strike and you strike alone. But that isn't the way. Of the average jay in this little world of our own.

Production's the panacea. For every business ill. But we'd rather shirk. Than go to work. For work gives us no thrill.

For me, I am fond of labor. My heart in rapture melts. At the thought of toil. In the mill or soil. That is done by some one else.

Occasionally the weather man has an accident and guesses right.

OLD SCISSORS SAYS:
In furnishing food to Bolshevik Russia, Uncle Sam should stipulate that Bill Haywood and Emma Goldman get little of it.

GLOOM.

Your wife is coming home in the near future. This is not written with the intention of depriving you of the pleasure of the few remaining days of liberty and happiness, but to help you. Forget that summer name. It would be fatal for you to call your better half Mildred when her name is Alice. You have perhaps acquired the habit of being polite. The same politeness may make your wife suspicious. Get back to normal, but if you have decided to treat your sweet wife with more consideration do so gradually. Be warned, as women are clever and have intuition. You have probably come to the conclusion that your helmate is not so bad and that women are very similar after all—that is, when the novelty wears off. The return of a wife is often tragic. You are a man and therefore you are a fool. Send for our booklet, "The Wife's Return," and be prepared and learn how to avoid complications and failure.—Marcel Steinbrugg.

An airplane can climb 15,000 feet in ten minutes, but can descend 30,000 in ten seconds.

"Medical Journal" asks: "What makes us tall or short?" We know what makes us short. Ask us a hard one.

To Every Registered Reader of The Lima News a Travel Accident Insurance Policy For \$1,000

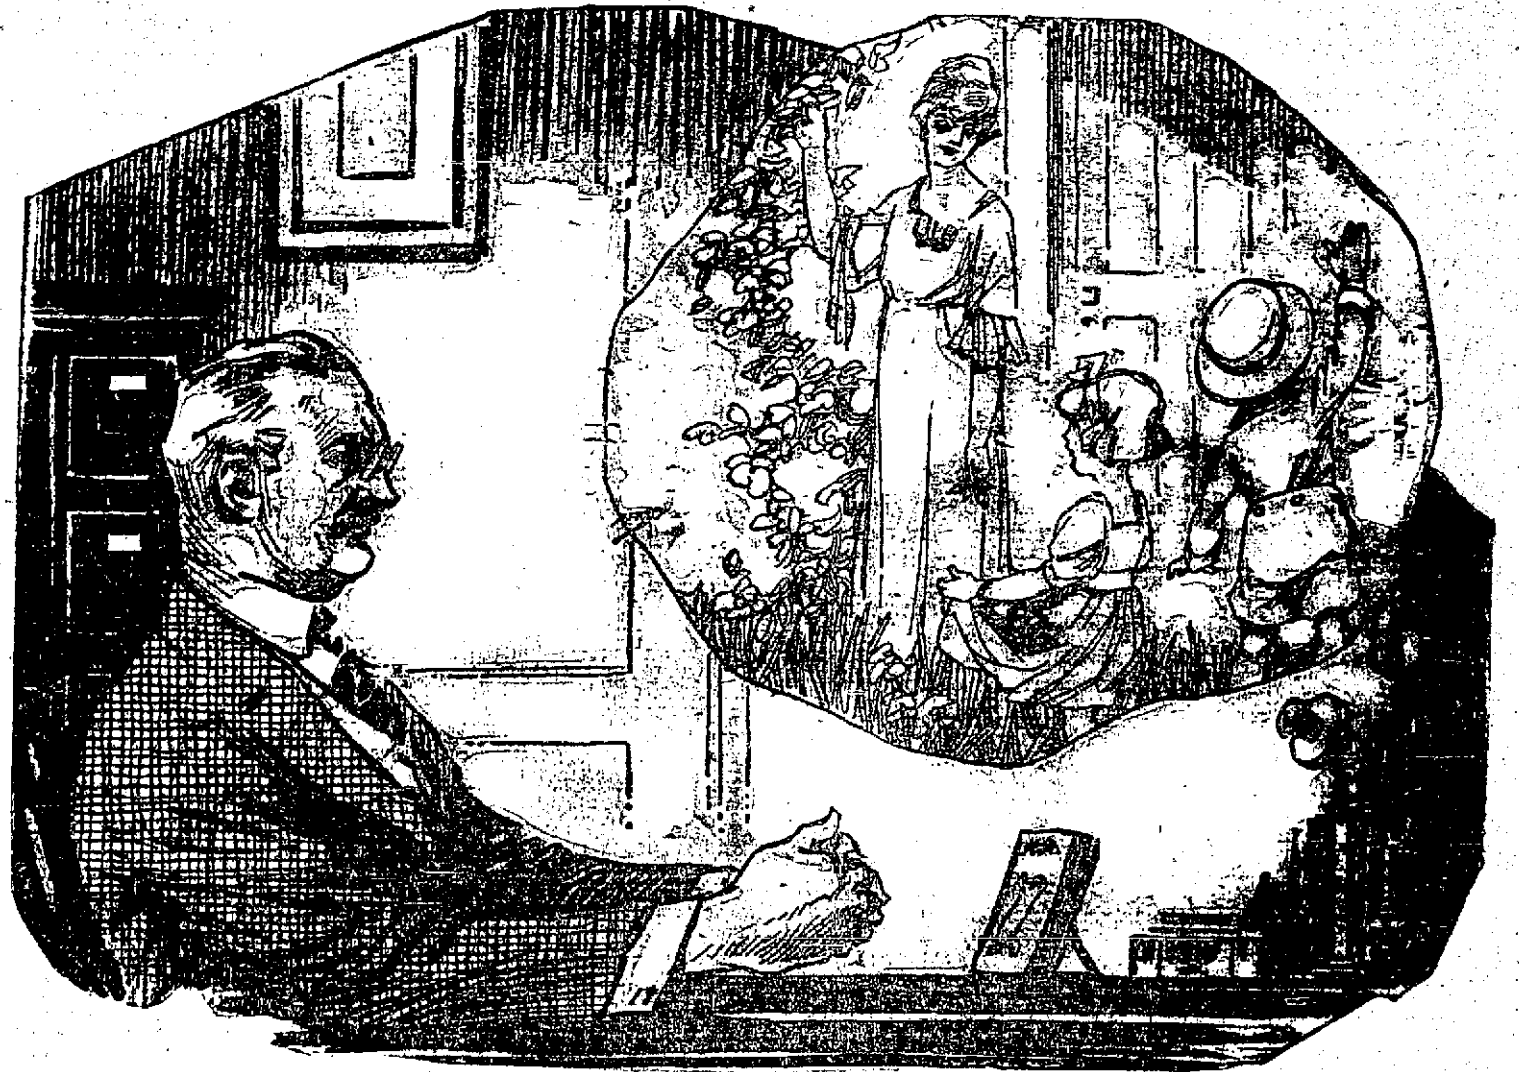

Here Are The Conditions Of Your Protection

Men and Women May Be Insured

You are taking 1,000 chances a year, one chance for every time you ride in a vehicle of any sort, every time you cross a street where vehicles run. You may be killed. In that event, The Lima News SPECIAL READER SERVICE travel accident policy would pay your family \$1,000. However well off you are your family can find use for this money.

There Were 937 Accidents in Lima the Last Twelve Months

Even the most careful persons are subject to the carelessness of others. You may be the most careful person in the world, that doesn't protect you if you are in a street car, on a train, in an automobile, buggy or wagon.

So The Lima News, Viewing These Accidents of the Past 12 Months

wishes to protect its readers and has bought many thousands of these policies from the North American Accident Insurance Co. of Chicago, a company licensed to do business in Ohio, and one of the largest strictly accident companies in the country. The plan which the Lima News has made has been passed upon by the Ohio Insurance Department and approved.

If You Are Hurt You Get Benefits

YOU may be hurt in a street car wreck, an automobile smash, in a runaway, where a horse is frightened. REMEMBER the Lima

News policy, so cheap to you, pays you \$10 a week for 13 weeks, if you are totally disabled that long. If you are disabled only five weeks you get \$50, many times the price of your LIMA NEWS.

You Are Protected If You Read The Lima News and Join Its Insured Reader's Club

Do Not Be Skeptical

The Lima News guarantees this insurance policy. The state insurance department has passed upon the plan and the company. The North American Accident Insurance Company has been in business 36 years.

The Cost to You Is Only Seventy-five Cents a Year If You are a Subscriber to The Lima Daily News
